Re: 99P-1340/CP 1

Dear Sir or Madam:

In May 1999, the Environmental Health Network submitted petition # 99P-1340/CP 1 to have "Eternity eau de parfum" declared misbranded. I fully support this petition and hope that the FDA will give it careful attention with regard to your regulations 21CFR Sec. 740.1, 21CFR Sec. 740.2 and 21 CFR Sec 740.10 Regulation 21CFR sec. 740.10 specifically states:

"Each ingredient used in a cosmetic product and each finished cosmetic product shall be adequately substantiated for safety prior to marketing. Any such ingredient or product whose safety is not adequately substantiated prior to marketing is misbranded unless it contains the following conspicuous statement on the principal display panel: 'Warning--the safety of this product has not been determined.'"

As the petition shows, "Eternity" contains toxic ingredients whose safety have not been substantiated. There is no warning label on its packaging. I feel that "Eternity" and fragrance products like it pose definite threat to the health of an unsuspecting public. Therefore I ask your support for this petition to safeguard those already suffering from the effects of toxic chemicals and those yet to be affected by them.

Sincerely,

Mary K. Wilson
